

Accommodation Slagelse

The College:

ZIBAT Slagelse endeavour to service our students, when it comes to obtaining cheap accommodation etc. It is our experience, that especially our youngest international students find Slagelse a great stepping stone, as an introduction to Denmark. Slagelse is a low-key introduction to the Danish system prior to further education in the larger cities i.e. Copenhagen or Aarhus. We have graduates that have gone on to further studies in Roskilde choosing to stay in Slagelse, as the housing is very cheap. The cheap housing potentially frees up the students from having to work, which is difficult to do anyway, as the fulltime program take up a lot of time.

Accommodation:

If unable to obtain secure accommodation by yourself please contact Kenneth Hansen keha@easj.dk and get a bed in a Boarding House, i.e. sharing a room with another student until you have secured a rented apartment. This is not a permanent arrangement and subject to vacancies.

The Town:

Slagelse is a university city, where multiple educations are situated not only in ZIBAT, but also Selandia and Syddansk University etc. making this a city, where there are enough choices for extracurricular activities. A rich café life, cinema, sports activities, on-campus Friday bar, where they can socialize not only with their own student mates, but also with students from other programs. The students use the college's facilities after class and at weekends for collective activities, such as movie watching etc.

If you have questions about Campus Slagelse please feel free to contact:
