TAKE ON AN INTERN

FROM ZEALAND INSTITUTE OF BUSINESS AND TECHNOLOGY

Zealand Institute of Business and Technology (ZIBAT) offers academy of professional higher education programmes and professional bachelor education programmes, all of which have been developed and are offered in close collaboration with the business community. Therefore, all students at ZIBAT must complete an internship at a business as a part of their study. Internships are to provide students with an opportunity to apply theory to practice, while businesses in return get an extra employee and the chance to have specific work performed or a specific problem solved. The objective is to couple the theory and tools studied with the real challenges facing modern businesses every day.

WHAT'S IN IT FOR YOUR BUSINESS?

Students from ZIBAT possess a broad range of the qualifications that businesses demand today. ZIBAT students have the most up-to-date knowledge within their field and can therefore look at your business with a fresh pair of eyes. We know from our experience with internship collaboration that internships lead to exiting and fruitful outcomes for everyone involved.

An intern can:

- provide fresh blood, new knowledge and new perspectives on your business;
- help perform day-to-day tasks in your business;
- help perform analyses, development projects, calculations, campaigns or design projects carried out which would otherwise not have been prioritised;
- help solve problems facing your business;
- be your informal meeting with a potential future employee with a degree.

ZIBAT takes on students in the following programmes:

CONSTRUCTION AND INSTALLATION

Technology and Construction Management
Construction Technology
Electrical Engineering
Heating and Sanitary Engineering

COMMERCE, MARKETING AND FINANCE

Commerce Management *
Financial Management

Start-up of internship ■

MANAGEMENT, ORGANISATION AND LOGISTICS

- Business and public administration
- Logistics Management *
- Service, Hospitality and Tourism Management *

TECHNOLOGY AND AUTOMATION

- Automotive Technology
- Production Technology

ARE YOU OPERATING IN MARKETS OUTSIDE DENMARK?

Then an international student can help you expand your operations even further!

At ZIBAT we have students from more than 25 countries and we can therefore offer you a unique opportunity to strengthen your relations in a new international market. All of our international students have been carefully selected on the basis of their skills to ensure that they can fit into Danish society. Programmes marked by an asterisk (*) are offered in English and students from these

programmes therefore have strong international skills to offer.

WHEN IN THE YEAR IS THE INTERNSHIP?

The period of the internship can take place in the spring or in the autumn (see illustration below) and varies from ten weeks to a year depending on the specific programme. However, for most programmes the internship period is ten to twelve weeks.

HOW DO WE GET AN INTERN?

Don't hesitate to send us your internship opportunity announcement. For more information, please contact the person responsible for internships at the programme(s) that match your needs. You can find us here: www.easj.dk/find-en-praktikant/

We look forward to working with you!
