Web Development (PBA)

Work within:

- Design and construction of web applications
- Planning and architecture of web systems
- Web consulting

This programme is closed for the time being

Studying for a Professional Bachelor's degree in Web Development, you develop innovative designs, web applications and systems. You explore and experience new technologies and gain skills to work independently across platforms, applications and media. You will be working with the latest knowledge at a high theoretical level, rooted in actual, practical and business-related issues.

The course gives you a thorough knowledge of both back-end and front-end programming and coding, databases, development environments, XML, content management systems (CMS), web communication and network sociology.

In web development, you can help create projects within:

- Interface design, app-design, tablets, mobiles etc.
- Internet of Things – programming of robots, laser cutter, 3-D printer etc.
- Virtual Reality – development of applications for VR, sounds, 3-D experiences.

Professional Bachelor in Web Development is a postgraduate degree and admission requires AP diploma in multimedia design or computer science (or equivalent). All classes and materials are in English.

Uddannelsens indhold

Web Development is a 1.5 year programme consisting of a series of compulsory subjects and elective subjects. There is an obligatory three month internship period during the 3rd semester.

You will learn subjects such as backend-/frontend programming, databases and XML, interface design and digital aesthetics, project management, advanced media technologies, web communication and network sociology, CMS, and development environments.

You can specialize in project management, cyber-security, or interface design and media technologies. Classes are in English.

Studieordning

- Web Development - 2022
- Web Development (Winter) - 2022
- Web Development - 2021
- Web Development (Winter) - 2021
- Web Development - 2019
- Web Development - 2016

Adgangskrav

For admission to the bachelor top-up programme in Web Development, the following educational qualifications are required:

EDUCATIONAL QUALIFICATIONS – PBA WEB DEVELOPMENT

- AP Degree in Computer Science or
- AP Degree in Multimedia Design and Communication

You can also apply for admission with other degrees. The application will then be considered on equal terms with other applications if Zealand consider that you have qualifications corresponding to the above mentioned degrees.

ENGLISH PROFICIENCY

The applicants must submit one of the following tests to prove their English proficiency:

Test	Score (minimum)
Danish B-level in English	3.0 (average)
IELTS (academic)	6.5
TOEFL iBT (internet based)	83
PTE Academic - Pearson Test of English	58
CPE Cambridge Certificate of Proficiency in English	Grade C
CAE Cambridge Certificate in Advanced English	Grade C
FCE Cambridge First Certificate of English	Grade A
Other official proficiency tests with an equivalent level may be recognised on an individual basis according to the CEFR, Common European Framework	

Test results must not be more than two years old at the time of application.

An applicant may ask for an exemption concerning the English test, if he/she has acquired sufficient English proficiency in other ways, e.g. native speakers, extended work/studies in an English speaking country, the International or the European Bacculaureate.

If the applicant has studied his/her AP degree entirely in English, he/she is also exempt from an English test. This may be documented by either a diploma supplement stating that the language of instruction is English, or by a letter from the school where the applicant is currently studying for an AP degree.

Praktik

All full-time programmes at Zealand contain an obligatory internship period that lasts between 10 and 40 weeks.

The internship period's length and placement during the programme depend on the programme, but the internship is usually placed during the last semester of the programme and will be followed by your final exam project.

Titel	Professional Bachelor's degree in Web Development
Niveau	Professionsbachelor (TOP-UP)
Varighed	1½ år
ECTS point	90
Sprog	Danish/Dansk
Steder	Maglegårdsvej 2, 4000 Roskilde

Zealand

Sjællands Erhvervsakademi

Zealand

Du har valgt at samle denne brochure med nogle af vores fuldtidsuddannelser og/eller efteruddannelser. Uanset hvad, er du godt på vej til at forme din fremtid med en relevant og praktisk orienteret uddannelse – Velkommen til Zealand!

Vi arbejder tæt sammen med over 1000 virksomheder, som er med til at sparre, udvikle og sikre relevans for dig som studerende. Zealand er til stede på afdelinger i Region Sjælland; Roskilde, Næstved, Køge, Slagelse og Nykøbing Falster - samt en uddannelsesstation i Holbæk.

Fremtids- og erhvervsrettede fuldtidsuddannelser

På Zealand kan du tage vælge mellem 25 videregående fuldtidsuddannelser på erhvervsakademi- og professionsbachelorniveau. Du kan fx læse til Markedsføringsøkonom, Produktionsteknolog, Laborant, Datamatiker eller Bygningskonstruktør.

Vores uddannelser kombinerer teori med praksis, så du er klædt på til virksomhedernes behov. Du kommer også tæt på virkeligheden igennem de obligatoriske praktikophold - og case-opgaver i tæt samarbejde med regionens virksomheder.

Fleksible efteruddannelser i balance mellem job og familieliv

Vores fleksible efter- og videreuddannelser er tilrettelagt sådan, at du kan forene din karriere, dit familieliv og din livslange kompetenceudvikling i god balance. Du kan tage en hel efteruddannelse eller det modul, der passer dig lige nu på akademi- og diplomniveau. Flere af vores moduler kan du også studere via blended learning og online-undervisning og vi sammensætter også kursusforløb for hele virksomheden. Vi tager altid udgangspunkt i dine konkrete behov. Du skal kunne anvende din ny viden med det samme i dit job.
