How is Denmark doing at the moment?

Latest news about COVID-19 in Denmark

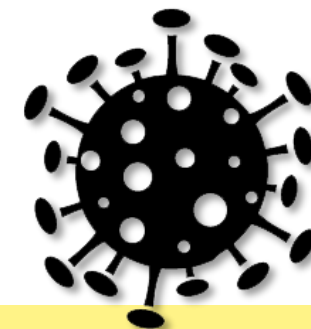

- Latest numbers of COVID-19:

14 th JAN '22	7 th JAN '22	
211,603	223,251	number of tests in the last 24 hours
25,751	25,995	confirmed cases (infected)
755	756	hospitalised

- New restrictions have been introduced in Denmark.
- **Restrictions that currently apply:**
 - “Corona passport” at Zealand, restaurants, cafés, hairdressers, etc.
 - Night clubs are closed.
 - Bars, restaurants and cafes close at 10 PM.
 - Face masks: Zealand, restaurants, shops, supermarket and retail, public transportation, the airport, hospitals.
- Depending on which country you are travelling from, **travel restrictions** can have an impact on your arrival in Denmark.

Travel restrictions

Depending on which country you are travelling from, **travel restrictions** can have an impact on your arrival in Denmark.

Restrictions are **constantly changing** depending on infection rates and new COVID variants – we therefore advise you to stay alert:

- <https://en.coronasmitte.dk/rules-and-regulations/entry-into-denmark>
 - Rules and regulations for entering Denmark
 - COVID-19 test is required when entering Denmark – exemptions might apply (previously infected e.g.).
 - Isolation requirements depending on country/region of departure (high-risk COVID countries)

Corona passport and testing

Corona passport

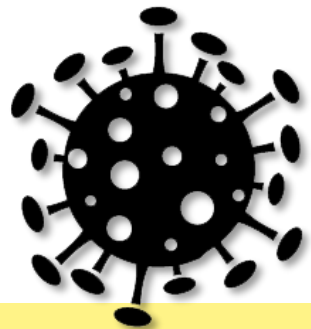

- Affective if you:
 - Have a negative COVID-19 test max 48 hours old (quick test) or max 72 hours (PCR)
 - Have had the first shot of the vaccine at least 14 days ago
 - Up to 5 months after being fully vaccinated*
 - Unlimited after third dose
 - Have a positive COVID-19 test which is at least 14 days old, but younger than 6 months
- Used for: Zealand campuses, Restaurants, bars, cafes, hairdressers, museums, zoos, etc.
- NOT used for: shops (including supermarkets and pharmacies), seeing a doctor.
- Is *expected* to still be required in February.

Testing

- It is very easy to get tested – also if you do not have symptoms.
- The tests are **free of charge** for everyone.
- If you are registered in Denmark:
 - book a test or take quick test with your yellow health card.
- If you are **not** registered yet:
 - Register yourself at covidresult.dk and call to book a test.

***Fully vaccinated with a vaccine approved by EMA (European Medicines Agency):**

- Pfizer BioNTech
- Moderna
- AstraZeneca
- Janssen Pharmaceutica

Vaccination programme in Denmark

- The vaccination is completely **voluntary** and **free of charge**.
-
- Only Pfizer BioNTech and Moderna are offered in Denmark – unless you consult with a doctor first
- You can get vaccinated in Denmark if your stay is at least 30 days, even if you are not registered:
 - Capital Region of Denmark: +45 38660000
 - Region Zealand: +45 70204233

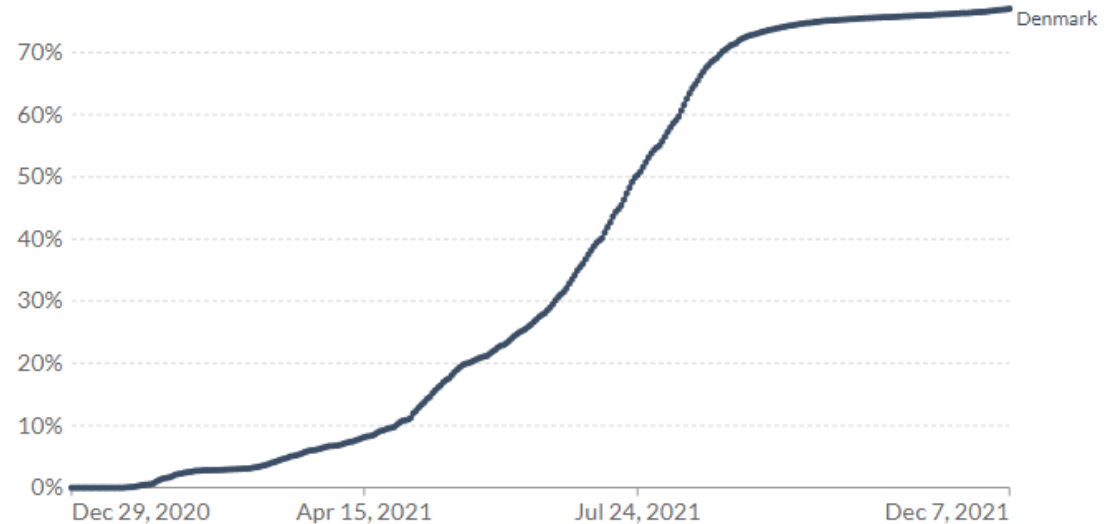

You will be automatically invited for vaccination when registered in Denmark (CPR No.)

4.6 million have been fully vaccinated (79% of the population)
More than 3 million got a third shot – offered after 4.5 months

Share of the population fully vaccinated against COVID-19
Total number of people who received all doses prescribed by the vaccination protocol, divided by the total population of the country.

Impact on Zealand, classes and study start activities

- This past semester all classes have been conducted on the premises at Zealand (exams online) – we hope and expect the same for the spring semester 2022.
- Currently, all students and staff need a valid **Corona pass** to access Zealand's campuses. We expect this will also be the case in February.
- We **expect** that Zealand will be open for **physical attendance for study start** in February.
- We **follow the development** regarding the restrictions and guidelines closely, in case it does not end up as we anticipate.
- If we have to offer classes online, contrary to expectation, **we can still ensure high quality teachings**.
- The situation is constantly changing developing all the time, so **please stay informed** via our website, Moodle, e-mail and Danish authorities.
